NEW FRANCHISE

Have you ever gone to your local wireless store and they discontinued your battery? Look no further. America's fastest growing portable power solutions company, Interstate All Battery Center (IABC), is coming to McKinney and Plano. With access to more than 16,000 battery and power solutions, IABC promises to meet each customer's battery need even if they have to find or build it.

New franchisees, John and Karla Chunn recently signed an agreement with IABC to open two retail locations in late Summer 2010. The locations will serve customers with the proven 58-year old Interstate Batteries standard for outrageous dependability and quality products and provides thousands of batteries for everything from laptops and cameras to boats and hearing aids. The Chunn's expansion will give IABC a total of three locations in the DFW area.

Please send Around Collin County items to Brian Bearden at bbearden@acnpapers.com.
